festation of Contagious Blood Poison is usually a tiny sore or pimple, but it rapidly spreads, and in a short time the entire body shows its presence in the bloot. The mouth and throat ulcerate, glands in the groin swell, the hair begins to come out, copper-colored spots appear on the body, and frequently running sores and ulcers break out on the flesh.

A condition of such serious nature requires proper treatment.

Not only must the disease be driven out, but the system which has been weakened by the powerful poison must be built up, before health can be restored. The queston of most importance therefore is—what medicine has proven by actual results its superiority as a blood purifier? We claim this distinction for S. S. S. because of its successful record for more than forty years.

It goes into the circulation and removes the last trace of the infectious virus, acts with fine tonic effect on the stomach, bowels, kidneys, and other portions of the system, and thus makes a perfect as well as a permanent cure. S. S. S. is made entirely of roots, herbs and barks, each of which has a specific action on the system. Not a particle of mineral or other harmful substance enters into its composition. S.S. as perfectly safe for any one, and instead of upsetting the stomach, as mineral medicines often do, it tones up this important member, and makes digestion easy. Thousands have cured themselves of Contagious Blood Poison by the use of S. S. S., and if you will write and request it we will send you, without charge, our Home Treatment Book which will give you all necessary information for crushing out the life of this serpent-like poison and curing yourself at home. We will also give you free any medical advice you may wish. S. S. S. is THE SWIFT SPECIFIC CO., ATLANTA, GA.
